Visual Studio interface showing a C# project named ProxyPattern_1262774. The main editor displays the code for Form1.cs, which includes a private void Form1_Load method and a private void cmbPictures_SelectedIndexChanged method. The code is currently in the Design view.

```
21 }
22
23 1 reference
24 private void cmbPictures_SelectedIndexChanged(object sender, EventArgs e)
25 {
26     btnShowImage.Enabled = true;
27     string sname = cmbPictures.Text;
28     foreach (SubjectMyImage smi in PList)
29     {
30         if (sname == smi.ShortName)
31         {
32             lblCategory.Text = smi.Category;
33             lblShortName.Text = smi.ShortName;
34         }
35     }
36
37 1 reference
38 private void Form1_Load(object sender, EventArgs e)
39 {
40     cmbPictures.Items.Clear();
41     string picfolder = @"c:\MyImages\Images";
42     DirectoryInfo di = new DirectoryInfo(picfolder);
```

The Solution Explorer on the right shows the project structure, including ProxyPattern_1262774, ProxyPattern_1262774.Form1, and Form1_Load(object sender, EventArgs e).

The Locals window at the bottom left shows the current state of the application, with the variable Name having a value of 141.

The Form1 window is displayed in the center, showing a user interface with a dropdown menu labeled "download.jpg", a label "download.jpg", a label "Mountains", and a button "btnShowImage". The button is currently disabled.

The Windows taskbar at the bottom shows the system clock as 02:53 PM on 03-12-2024, and the DOW index as -0.18%.

Visual Studio interface showing a C# project named ProxyPattern_1262774. The main editor displays the code for Form1.cs, which includes a private void Form1_Load method and a private void cmbPictures_SelectedIndexChanged method. The code is currently in the Debug state, and the stack frame shows ProxyPattern_1262774.Form1.Form1_Load.
